Hazards and Risks

For homecare workers in aged care and disability

Home support workers need to be alert to hazards and risks in their jobs and they need to know what to look for and how to report and record them, for their clients' safety, their own safety and for ongoing best practice.

The DVD has 5 chapters and is interactive. At the end of Chapters 1 to 4, there is a short sequence that shows a number of hazards in different home care situations and asks workers to "spot the hazard and discuss the risk".

The final chapter repeats these scenarios and adds 3 new situations, again inviting the viewer to "spot the hazard and discuss the risk".

This DVD is an essential, simple interactive tool, which will support workers in their everyday work in a client's home.

Project developed by [Fran Haarsma Productions](#) and funded under the Workplace English Language and Literacy (WELL) Program by the Australian Government Department of Education, Employment and Workplace Relations.

Price

AUD\$125.00
