Environmental Sustainability in Manufacturing Clean Lean Green

This DVD is an introduction to environmental sustainability in Australian manufacturing.

It explains in simple terms, greenhouse gases, global warming, climate change, our carbon footprint, renewable and non-renewable resources, over consumption and the 5 Rs – refuse, reduce, reuse, repair and recycle.

The DVD also contains three case studies in Australian manufacturing and the steps the people in these businesses took to successfully implement environmentally sustainable activities into their everyday life - at work and at home.

The accompanying CD contains a Trainer’s Guide with customisable Learners’ Worksheets and PowerPoint.

This resource can be used to support delivery of the unit MSAENV272B Participate in environmentally sustainable work practices.
